

Virginia State University College of Education Professional Education Programs Unit Program Enrollment

Departmental Data 2008-2013

Mission and Vision of the Unit

Vision

The vision of the Professional Education Unit at Virginia State University is to be the driving force in the continuous preparation of competent, caring, effective, and reflective practitioners and professional educators who are committed as leaders to meeting the challenges of educating all students for a diverse global learning community. The following graphic is visually representative of the College of Education Professional Education Unit's vision.

Mission

Creating a positive learning environment for all candidates and using evidence-based performance standards to develop reflective practitioners and professional educators are central to the Professional Education Unit's mission. The Unit promotes and maintains academic programs with research-based pedagogy, technology-based learning, and reflective practices that integrate service to the community, ever mindful of the students' diverse cultural backgrounds.

The Conceptual Framework

Competent: Understanding the central concepts, tools of inquiry, and structures of the content area(s). Understanding ways to enhance the learning process and learning environment through effective use of technology. Creating learning experiences and environments that make the subject matter meaningful for learners.

Caring: Showing respect to all learners and empowering them to set achievable goals while maintaining high standards. Demonstrating a commitment to professionalism, continuous reflection, and application of research-based best practices.

Effective: Using research-based best practices and performance assessments to guide the learning process and positively impact the learning environment to ensure that all students learn.

Reflective: Reflecting upon and evaluating research and the success of past decisions in an effort to make better decisions in the future.
